

## Room Stock Inventory

The HAL® Room Stock Inventory module tracks the location and condition of stock items for guest rooms, such as furniture, appliances, and decorative pieces. Inventory items are tracked from receipt through the life of the asset.

You can determine at any time which stock items have been issued and how many are available; on-line actual/discrepant stock count gives you instant, accurate control over your inventory.

The following are outstanding features of the HAL Room Stock Inventory module:

- ◆ user-defined alphanumeric stock numbers and descriptions.
- ◆ allocation of received stock to individual rooms.
- ◆ inquiry by room to examine stock issued to room.
- ◆ ability to track standard and retail cost of stock item.
- ◆ free-form comments per item to record such information as vendor contacts, purchase price, and quantity breaks.
- ◆ entry of stock receipts complete with invoice number, supplier, and stock detail.
- ◆ inquiry by stock shows number of rooms using the stock item, as well as quantity of stock item on hand and quantity available.
- ◆ free-form comments on each room to describe unusual features, maintenance notes, and usage history.
- ◆ damaged goods entry and report.
- ◆ inventory valuation reports.
